**Subject:** So many people and organizations are vehemently OPPOSED to HB 5232!

Don't continue the war on Michigan's historic preservation assets! The proposed bill is unbelievably SHORT-SIGHTED!!!! Don't destroy Michigan's important cultural resources!

Historic districts raise property values and preserve the uniqueness of their communities. Don't take away this local control with your unnecessary legislation. Our current historic preservation law is not broken. Don't try to "fix it."

Frankly, I am embarrassed and APPALLED that our legislators would even consider weakening our historic districts. It sounds like something developers would do. Are you doing it on their behalf?

Have you not noticed the opposition to this proposed legislation!!! You seem to have taken no notice of bodies like the Washtenaw County Commissioners, as well as the countless individuals, who have expressed their opposition and OUTRAGE.

So you think that something deemed historic and worthy of preservation has an "expiration date?" REALLY?!!!
